MALTA

The Federation of English Language Teaching Organisations in Malta (FELTOM) is celebrating its 30 th anniversary this year. Although the teaching of English as a foreign language was still in its infancy in 1989, a number of Maltese schools felt the need to come together to set up this Federation; whose goal then and now is still the same: to improve and maintain quality standards. Today, Malta is able to boast about being a reputable centre of excellence when it comes to the ELT sector.

With 30 years of experience, FELTOM has become a recognised industry leader representing an estimate of 85% of total student arrivals in Malta. Over the years, it has worked hard for the ELT sector to become an economic pillar in its own right. As FELTOM we are always forward-looking and aim to continue contributing to the industry and the Maltese economy.

As CEO I feel great satisfaction in being part of this ever-growing industry. To interact with the 21 exceptionally run, member schools that strive on a daily basis to provide quality and value for the students that choose to come to Malta to learn English.

What is FELTOM?

FELTOM was founded by ten established English language schools in 1989. Its founding members foresaw the protentional of the ELT industry in Malta and established this self-regulating, non-profit organisation, dedicated to promoting professionalism within the English language teaching industry by setting and maintaining standards in every aspect of a language stay.

Mission Statement

The objective of FELTOM is to set, improve, and ensure the maintenance of standards in, and direct the development of, all aspects and services which together constitute the requisites of an English language stay in Malta and to develop cooperation amongst licensed English Language Schools and strengthen the role of Malta as a destination for English language stays of quality.

FELTOM's board had developed the 3 main purposes for this Federation;

- Marketing and Promotion
- Advocacy
- Accreditation

Marketing and Promotion

FELTOM works hard to promote Malta as a safe, professional, quality destination for English language learning whilst promoting the choice of FELTOM accredited schools.

FELTOM undertakes ongoing marketing campaigns which include participation in some of the most prominent international marketing fairs and workshops. These events enable FELTOM to network and build relationships with international agents and associations, who are considering Malta as the preferred destination for their clients.

James Perry
CEO
FELTOM

FELTOM has an active communications strategy, producing informative editorials for leading industry publications, both locally and abroad. It also contributes to the development of teaching professionals through workshops and conferences, as well as industry networking events.

Advocacy

FELTOM is inherent in its operation to lobby and promote legislation and regulations that would seek to safeguard and put forward the interests of the ELT industry in Malta.

Since inception FELTOM has been on the forefront, advocating the development of the Teaching English as a Foreign Language (TEFL) sector in Malta, working closely with legislators and officials, including Government bodies, foreign agents and other industry stakeholders.

FELTOM was instrumental in the introduction of the country's first law regulating English Language Teaching.

FELTOM has over the years established itself as a valid lobby group whose interest is solely that of seeing the English Language industry grow further and of establishing Malta as a major quality English Language destination.

Accreditation

FELTOM takes pride in the quality of its member schools and this could not have been possible without the Accreditation Scheme. The Federation has an independent Accreditation Council that assists and monitors its schools in order to ensure they are the best school's available on the island. This Accreditation Council is chaired by Mr. Jason Aquilina, who will be elaborating further regarding FELTOM's accreditation process.

Chairman
FELTOM Accreditation Council

The FELTOM Accreditation Scheme

As a self-regulating national body, FELTOM has established a set of codes of conduct and standards of service as a mandatory requirement for its members. These are embodied by the FELTOM Accreditation Scheme which was first implemented in 2006. The scheme is administered by the Accreditation Council, a body separate to the other organisational structures within FELTOM, composed of two independent persons, as well as the FELTOM CEO and the chairperson of the FELTOM Board representing the member organisations. This council is responsible to appoint competent and independent inspectors to carry out inspection activities and also decides on the outcome of those inspections.

Becoming an accredited FELTOM member involves a rigorous application process which includes submission of formalised policies and procedures which go through a desk review. This is complemented by a visit by one of the FELTOM inspectors to carry out an audit. This is held during the peak summer period. Full inspections are held once every three years, with review visits held in the interim.

FELTOM ACCREDITATION SCHEME LIFE CYCLE

Inspectors visit all premises held by the organisation and not just the main school complex. They have the opportunity to witness classroom activities, interview key personnel, check staff qualifications and evaluate the effectiveness of health and safety risk assessments as well as the correct implementation of policies on handling complaints and customer feedback, amongst many other requirements. In fact, the accreditation process establishes quality standards in six main areas, namely:

1. Leadership and Management

The management of the FELTOM member organisation shall operate to the benefit of its students and professional staff in accordance with legal and regulatory compliance. The management will lead the FELTOM member organisation in its quest for continuous quality improvement.

2. Learning and Teaching

Academic staff members of the FELTOM member organisation shall have the appropriate knowledge, skills and competencies to deliver courses and assess students effectively in order to optimise outcomes for students.

3. Student Welfare

The FELTOM member organisation shall meet the needs of the students for security, pastoral care, information and leisure activities.

4. Premises and Facilities

The learning resources and environment shall support and enhance students learning and offer an appropriate professional environment for the teaching staff.

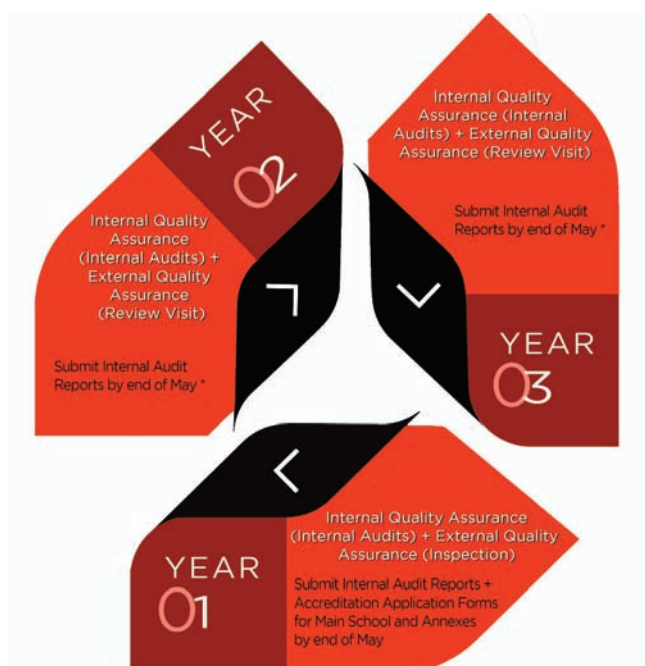

5. Recruitment of Learners

The application and enrolment process shall be clear and easy to follow for students and agents. Promotional material shall be ethical, accurate and consistent.

6. Care of Minors

The FELTOM member organisation shall have organisational structures that effectively support the provision of services to minor students, with particular emphasis on their welfare and safety.

The accreditation process allows members to strive to adhere to and continually improve standards and better understand and fulfil the needs of their learners. By successfully going through this process, the FELTOM member, as an accredited organisation, will manifest a commitment to meeting and maintaining quality standards through the use of the FELTOM Accreditation mark, a globally recognised mark of excellence in the ELT sector.

The mission of the ELT Council for ELT Schools is to foster the ELT Profession and Industry in all its various aspects.

Regulated by means of a legal notice(221 of 2015), the ELT industry in Malta handles over 80,000 students per year arriving more than 60 different countries. ELT students study in any one of the 40 ELT Schools licensed by the ELT Council, whose aim is to safeguard Malta's reputation as a quality ELT destination.

The ELT Council forms part of the Ministry for Education and Employment in Malta. We pride ourselves to offer a value added experience to all our students, we ensure that students choosing Malta to learn English benefit from a full immersion experience through which they can enjoy their stay in Malta while learning the language in an English speaking country, attending lessons delivered by qualified teachers in licensed ELT schools. All teachers in Malta must be in possession of an ELT permit to teach English and cpd is also mandatory by law.

The ELT Council's main duties include licensing ELT Schools, issuing ELT teaching permits as well as regulating other academic and non-academic aspects of a student's stay. As a regulator, we ensure that all ELT Schools in Malta comply with

the legal notice and policies, particularly focusing on academic and teaching standards, health and safety on premises and wellbeing of minors. The ELT Council regularly visits schools, providing an opportunity for schools to take stock of their systems and make improvements wherever necessary. This will ultimately lead to a top-notch product for future ELT students.

The ELT Council's largest CPD event of the year is the national ELT Malta Conference. It is an annual event attended by over 300 ELT professionals, aimed to foster a culture of continuous professional development. The conference opens with a ceremony during which the 'Inspiring ELT Professional Award' winner is announced . The award is given to an ELT professional whose contribution is considered outstanding by inspiring their peers and motivating their student.

All these measures ensure that students who choose to study English in Malta benefit from a superlative learning experience combined with the unique culture and heritage the country has to offer.

However, this is not the only language spoken on these islands; English is an official language making it the ideal ELT destination. Malta enjoys some of the world's clearest and most breathtaking waters, therefore also makes it one of the

Malta is a religious country with Roman Catholicism being the main faith. In fact, The Maltese Islands have 365 churches meaning you can visit one on each day of the year. According to the Bible, St Paul was shipwrecked in Malta whilst travelling on his way to Rome and converted its inhabitants in 60AD. After the end of WWII, the whole island of Malta and all of its

GOZO ... means joy and a visit to Malta's relaxed sister island brings you that!

Our students at **BELS GOZO**, are more than just a face in the crowd. We are small and personal for a reason, the reason being our constant commitment towards teaching English where quality is valued over quantity. Top quality tuition, interactive and engaging lessons, using the English language in a meaningful and contextualised way are synonymous with our BELS Gozo centre.

Our school is located on the outskirts of the picturesque village of Kerċem. The school is surrounded by countryside, providing the perfect environment for studying English. The school is located in the heart of the UNESCO world heritage city, Valletta, with its rich history, and safe and friendly surroundings. Valletta is an ideal home for Cavendish School of English and its students. The school is at the centre of the attractions in Valletta, a stone's throw from all the major transport access points. The city's central bus station is 3-4 minutes' walk and the ferry connections to Sliema are only 2 minutes' by foot. One block away is the pedestrian zone where various shops and restaurants can be found.

In addition to its splendid surroundings, Cavendish School of English in Valletta provides an

excellent learning environment for all our international students:

The language courses are designed to satisfy the various study needs of both juniors and adults. Classes are determined by the level and mix of nationalities. More than often, this is less than 25% of the same nationality in each class, giving our international students the best opportunity to learn and make friends from all over the world. The school has small classes of no more than 12 students (with an average of between 3-8 students per class), therefore, students benefit from greater attention from their teacher.

For adult courses, the school provides a variety of choices all year round (except school holidays), including General English, intensive/super intensive English,

Business English, Cambridge certification courses (IELTS, FCE, FAC), one to one tuition, families and children courses and English for Specific Purposes for medical, finance and legal professionals, for example.

For junior students, there are Spring, Summer and Autumn courses available. All junior courses include English language lessons, educational excursions to famous destinations, and fun activities, with an official certificate recognised by various official governing bodies. Situated in the heart of Sliema, English Communication School (ECS) welcomes students of all ages, nationalities and different walks of life to come and learn, improve and master their English language skills.

We offer the ideal environment for learning, combining high academic standards with a relaxed friendly atmosphere and a committed team. Individual attention is our hallmark and improvement is guaranteed in whichever course you choose, whether it's group classes or private lessons. This approach, along with a vast experience and a variety of courses to choose from, is what makes ECS the successful English language organisation students know and love.

Established in 1988, ECS was one of the first English language schools in Malta and a founding member of FELTOM. We are a boutique operation that provides a personalised learning experience with individual attention

lavished on each of our students. This has led to our international success and a corresponding student satisfaction rating of over 95%.

Our language school is located right in the heart of Sliema and is housed in two adjacent typical Maltese townhouses that have been expertly converted into classes, leaving the characteristic features and combining traditional charm with modern equipment. Sliema is one of Malta's most popular tourist areas. We are only a stone's throw away from the sea, with regular ferry crossings to and from Valletta, as well as being close to shops, cafés, restaurants and beaches.

The school premises consist of two blocks, with eighteen classrooms divided between the two buildings. Classrooms in the main block are all fully air-conditioned. A central courtyard with a mature garden acts as an area where our students love to relax and mingle with their school-mates before lessons or during breaks. Block B is wheelchair accessible and is equipped with a lift and a games room. Free wi-fi access is provided to students throughout all the premises.

Most of our students choose to book their accommodation through the school and have a vast selection of

options to choose from, including hotels, self-catering apartments and host family lodging. All our host families live in close proximity to the school, with our apartments being only a short walk away.

Due to the size of our operation, we pride ourselves in being able to guarantee that personal touch and offer students a home away from home. At ECS we offer a customised curriculum rather than standard courses, and each week students cover exciting new material depending on their needs. We monitor each student's progress by individual monitoring, assessment with the

collaboration of our teachers and rotational level tests administered every four to six weeks. Each student is invited to take our online placement test before arrival.

Students benefit from dedicated, experienced teachers, comfortable facilities and modern resources. Sliema's international feel is mirrored in our great nationality mix. We also offer an exciting social programme to help all our students make the most of their time at ECS after school hours.

Through our partner company we can also provide study-work opportunities to help develop students' professional identity and further improve their language skills. These include quality work shadowing, internships and vocational experiences. International university students, recent graduates, young professionals, post-graduates and voluntary workers can benefit from opportunities with various reputable Maltese companies in more than 60 sectors. Both companies are ISO certified, further guaranteeing a standard of excellence across all our services.

ECS is here to support and equip students with the language tools they need to break down barriers in communication and succeed in their English language learning ambitions.

English Language Academy (ELA) has been established since 1988. This year we are celebrating 31 years of quality English teaching.

What sets us apart in the local market is that we are a medium-sized school (max. capacity of 350 students) which operates like a small school. One of our core beliefs is that our students aren't just customers, but that they're part of the family. Our 'family' atmosphere is extended to students as young as four and with no upper age limit (we've even had three generations of the same family taking lessons at the same time!).

This focus on holistic customer care enables us to maintain our reputation as a school that offers that special, personal service and is the reason we have some students returning to us this year for their

fifth and sixth visit. When placing students into classes, we keep our groups small and international, ensuring that everyone receives attention from their teacher and that they get to meet people from all over the world. Every student at the school, as part of their initial placement test, is personally interviewed by either the Director of Studies or the General Manager (who was our previous Director of Studies), ensuring that students are placed into classes with the utmost care.

We offer a large variety of courses for all ages ranging from General English, known as 'Everyday English', Business English, Exam Preparation courses, as well as One-To-One Tuition courses such as Personalised General English and Personalised Special English. Our group courses consist of a maximum of eight students in winter and ten in summer, except for business and examination courses where the maximum is six students all year round. Students are placed in groups depending on their level, age and nationality. Package prices for groups, including packages for teenagers and juniors, are also offered, contact us and we can come up with a custom package for your organisation.

As the only official TOEFL iBT Exam Centre in Malta, we are a school that has always had a good track record with international exam preparation courses. We employ a number of teachers who specialise in these courses, and offer TOEFL, IELTS, and Cambridge English exam preparation courses of the highest quality.

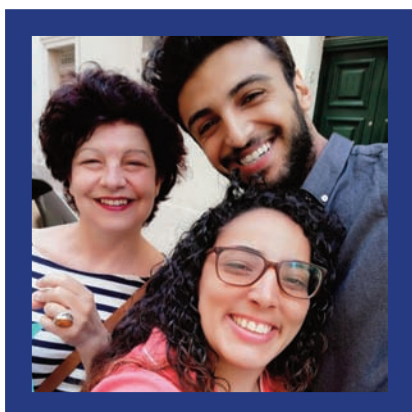

We are also a school with a long history of teacher-training. We are committed to offering a broad and varied amount of in-house training to our own

teachers, ensuring that our teachers are always equipped to provide engaging lessons. In addition to this, we offer Erasmus+ Teacher Training courses throughout the year, with teachers coming from all over Europe in order to make sure they're on the cutting edge of academic standards. We also run a number of TEFL Cert. courses each year, helping people begin their journey into English Language Teaching.

Our teenager summer classes are a maximum of 12 students and we try to keep our teen classes as international and as varied as possible, so that our teen students get to have an unforgettable international adventure. Our Summer Teen Camp, in particular, is gaining popularity each year as we send happy teenagers back to their home countries with the skills and abilities they need to be successful communicators in English.

Our school is located in Gzira, minutes walk from the bustling metropolitan area, Sliema, very much considered to be the 'pulse' of Malta. It is close to the beach, restaurants, shops and the University of Malta. Our students can benefit from accommodation services, a full leisure programme, airport transfers and assistance from our representatives who are fluent in most languages.

The school offers free Wi-Fi facilities to all ELA students in order to ensure that they can share their language learning journey with all of their friends, family and followers. We are open all year round from Monday to Friday except on public holidays. Should your stay coincide with a public holiday, any lessons that would have fallen on that day, get spread across the remaining days to make sure that you don't miss out on anything.

and specific requirements.

On their first day with us, all our students are given a placement written test, and a spoken test on the morning of the first day to make sure that all students start off at the right level.

Sprachcaffe Languages PLUS Malta is uniquely situated to offer its clients an all-inclusive English language holiday. In our complex you will find student accommodation, a 24-hour reception, leisure facilities including a large outdoor swimming pool, beach volleyball court, garden, lounge bar, restaurant, canteen and, of course, air-conditioned classrooms, audio visual rooms and a library. In short, everything one could want for a complete language holiday can be found in one place. Should you decide to venture outside of the complex, we are only a 15-minute walk from Paceville and St. Julians, the main nightlife centre of the island. We are also on a main bus route to both Sliema and the capital city, Valletta. It takes around 15 minutes to get to Sliema and not more than 30 minutes to reach Valletta by bus.

We offer classes from Beginner (A1) to Advanced (C2) level. Students complete either an online level test or are tested at the school on their first Monday morning to make sure everyone is placed at the right level.

Most adult classes have a maximum of ten students and are, of course, taught by qualified and experienced teachers. Students can choose between 20 or 30 lessons of General English courses or can alternatively choose an Exam Preparation or a Business English course. Cambridge Examination Preparation courses are available in January, March and September and are 20-lesson courses. If you are interested in enrolling in an Exam Preparation course, you should contact the school for a list of start dates. One-to-One courses are also available and students can book 2, 4 or 6 individual lessons per day. Courses begin on Mondays and you can choose to stay for as little as one week or as long as one year.

Furthermore, we offer a wide range of accommodation options – standard, comfort and studio self-catering apartments within the complex as well as hotels and homestays. The apartments can be booked on a single or double room sharing basis whereas the hotels and homestays can be also booked on a

triple room sharing basis. We also offer breakfast, lunch and dinner at our own restaurant.

Our leisure department organises various cultural excursions and boat trips around the Maltese islands and also sports activities including diving courses given by PADI qualified instructors. In addition, our animation team is busy organising various activities within the school throughout the week including welcome and farewell parties, theme nights, quiz nights, karaoke evenings and film nights.

With year round sunshine and countless leisure activities, Sprachcaffe Languages PLUS Malta guarantees learning success and endless memories. Learn and live in a place full of new friends and benefit from our extensive experience teaching students of all language levels. Learning has never been so relaxed and so effective at the same time. Our team eagerly awaits your arrival!
